

## **Appendix 1: Powerb@se MCX10 Data Center fact sheet**

Powerb@se is an integral part of PCCW Solutions, an IT services leader in Hong Kong and mainland China that holds more than 20 years' experience in the provision of local data center services. Powerb@se runs 10 data centers in mainland China and multi-locations in Hong Kong (including Hong Kong Island, Kowloon and New Territories). Its extensive data center networks provide reliable cross-border data center service for enterprises with operations in greater China, Asia and overseas.

Powerb@se MCX10 is the 10th data center facility to meet the growing demand for cloud and data center services.
