

## **Netvigator clinches six Ookla® Speedtest® Awards Recognised as the fastest and best broadband in Hong Kong and East Asia**

**HKT (SEHK: 6823) – HONG KONG, 10 March 2026** – Netvigator, under HKT, has recently swept six major awards from the renowned global independent connectivity intelligence leader Ookla® Speedtest®, including the fastest and best broadband, reaffirming its position as a leading broadband service provider in Hong Kong and across the East Asia region.

Ookla Speedtest has long been widely referenced across the telecommunications industry. Netvigator earned the following accolades for the second half of 2025, reflecting strong customer recognition for its high-speed, reliable, ultra-low-latency and seamless network experience:

- Fastest Fixed Network in Hong Kong
- Best Fixed Network in Hong Kong
- Best ISP Gaming Experience in Hong Kong
- Top-Rated Fixed Network in Hong Kong
- Fastest Fixed Network in East Asia
- Best Fixed Network in East Asia

Ookla Speedtest's sample data is drawn from over ten million tests conducted globally by actual users in real-world network environments. The results reflect operators' performance in terms of network speed, stability and overall user experience across various usage scenarios, making it one of the world's most widely adopted and trusted platforms for measuring internet speed.

Bruce Lam, CEO, Consumer, HKT, said, "Over the past 30 years of providing home broadband services, Netvigator has remained committed to advancing network technology and elevating user experience. These awards fully demonstrate HKT's network infrastructure capabilities, as well as our commitment to delivering reliable, low-latency connectivity to the public. Our F5G-A Super Broadband^ supports a full range of high-bandwidth applications, including artificial intelligence, online gaming and high-resolution streaming, as well as the growing connectivity demands of smart home devices across households, meeting customers' needs in their everyday lives. Looking ahead, we will continue to enhance our service quality to deliver an even better digital experience for our customers."

Ricky Kwong, Head of Network Planning and Operations, Engineering, HKT and CEO, Fibre Link Global, said, "HKT has been continuously enhancing our network

performance to meet our customers' evolving needs. As Hong Kong's first fibre network compliant with the F5G-A standard with extensive coverage across the city, our exceptional speed, bandwidth, latency, coverage, and reliability have earned us multiple accolades from Ookla Speedtest. Going forward, we will continue to explore advanced technologies to deliver an even smoother and more reliable network experience for our customers.”

- # -

^Super Broadband refers to the Netvigator fibre broadband service plan that meets the ETSI F5G-A standard. As of 31 December 2025, HKT's fixed broadband has met the ETSI F5G-A standard in the fibre networks of 56,000 designated buildings. 2500M Fibre-to-the-Home plans correspond to a maximum upstream and downstream bandwidth of 2500Mbps respectively. Actual speed experienced using the Service will be less than the network specifications and may be affected by your device, technology, network and software used, network configuration and coverage, usage levels, international bandwidth and other extraneous factors. 2500M Fibre-to-the-Home plans depend on the support of the end device.

## **About HKT**

HKT is a technology, media, and telecommunication leader with more than 150 years of history in Hong Kong. As the city's true 5G provider, HKT connects businesses and people locally and globally. Our end-to-end enterprise solutions make us a market-leading digital transformation partner of choice for businesses, whereas our comprehensive connectivity and smart living offerings enrich people's lives and cater for their diverse needs for work, entertainment, education, well-being, and even a sustainable low-carbon lifestyle. Together with our digital ventures which support digital economy development and help connect Hong Kong to the world as an international financial centre, HKT endeavours to contribute to smart city development and help our community tech forward.
